

Trackside Support at Texas World Speedway for **Texas Two-Step 2009 PCA Club Race**

Toyo and Hoosier Tire Pre-Order Deadline is Thursday, March 5th by 12:00PM
New Service Announcement! Tire Air Purge and Nitrogen Fill! \$35/set

We are now able to vacuum most all of the air out of your tires and refill them with nitrogen gas. This operation is performed to all tires at the same time. By removing the atmospheric air we can eliminate the humidity that causes inconsistent HOT tire pressures. This will extend the life of your tire and make the car drive more predictably.

Performance Speed Tech is the official trackside support for the drivers edge events. We are professional race mechanics providing pro-level support for the club driver. Our aim is to keep you safely on track. We supply the following support services:

- Tire Mounting and Balancing
- Brake system bleeding and flushing, brake pad and rotor replacement
- Tire Rotation and Installation Services
- Technical Inspections
- Suspension Tuning Services
- General repair jobs as long as parts and time allows for track worthy repair.

We also supply the following parts:

- Tires - Hoosier and Toyo
- Helmet, Shoes, Gloves, Suits, and Cool Shirt
- Brake Pads and Rotors
- Seat Harnesses and Restraint Systems
- Fluids - Lubricants and Cleaners
- Intercomp Tire Tuning Tools - pressure gauges and pyrometers
- Racer Tape and various other supplies

Tire Pre-Orders can save you shipping charges. PST will bring them to the track at no additional charge.

Please contact us for any of your needs before the event.
